## Lead Safe Ohio Program

Funds can help income-eligible families cover the cost of making their properties lead-safe, and protecting children and families from the harmful effect of lead exposure. Lead-based paint was used in 38 million homes until it was banned in 1978. Lead can affect children's brains and developing nervous systems causing reduced IQ, learning disabilities, and behavior problems. Lead is also harmful to adults. If you think your home has lead paint contact Brandi Cowell at [bcowell@kleinfelder.com](mailto:bcowell@kleinfelder.com) or **567-331-2679**, or visit [Medina County Lead Safe Ohio Website](#) to download the Pre-application and flyer.
